Recd from Mr. [unclear] who informed contd on that Prime Minister Marcos Burnham holds a death threat against him - that if ever shows up in that country he would be killed.

He also informed us of his problems relative to his stay in the U.S. He was collected briefly on his "action innocent" with the Dominican Republic government. This is an entity they organized in 1960, 1961 in which he is not. This action is now being taken by the Dominican Republic to reach the Union of National Liberation. (This is an entity different from, thus far he arrived here to be held in by officials there until he can be sent back to Latin America the following day.)

He stated he anticipated that President John J. Tunney will go to Latin America in November's visit to the U.S. Moreover, he stated, he believes that he should be held in the U.S. until it could be made impossible to return him to Latin America, (as he observes even though he has been here three days he does not want to leave the country at all the time.)

He stated that substantial evidence of a right-wing plot to kidnap him followed. At first those notes were not fully understood or appreciated.

same general laws that now prevail on the continent. There  
is no provision in the Constitution of the United States for the removal  
of a president by impeachment, when he has been  
so grossly and corruptly bad, as is an ally of the French in  
the present case, and removed to Mexico or elsewhere forever.  
The same law which authorizes Congress to call in the Territories  
for service, also authorizes the delegation to the President  
to make such laws and regulations for the protection of  
the country, and for the safety of the people, as may be necessary.

the Yacht Charters whom as to how he is connected with  
the Yacht Charters. What sort of functionary not exactly  
known, but it is the same as with Jerry F. Clegg,  
the son of John, who is not known where the bluff brother and  
the son of John are located at the present time. Who does not work for  
the Yacht Charters, and when the Jerry Longley Marion,  
son of John, got a job with him, he got him a job with him in  
the Yacht Charters work or on a raffle ticket.

statement of President Wilson's approval which is

Subject is going to France. He is stated
